**Subject:** Upcoming Site Response Action Report – Week of October 17, 2011  
Former Tidewater Facility

---

On behalf of National Grid, the following summarizes response actions expected to be performed at the above-referenced site during the week of October 17, 2011.

### SITE ACTIVITIES TO BE PERFORMED

- Complete site observation walk;
- Perform NAPL gauging;
- Continue shallow excavations within the natural gas regulator station area associated with station upgrades;
- Begin backfilling shallow excavations and trench associated with undergrounding the overhead gas line near the regulator station; and
- Continue air monitoring during excavation activities in accordance with the April 2011 Air Quality Monitoring Program (AQMP).

During and subsequent to the completion of the excavation work, certain above-ground activities (i.e., no excavation work) associated with the regulator station upgrades will be performed at the site.

Please contact me at 401-421-4140 Ext. 2719 if you have any questions or comments.
