**Use this form to record stack data for equipment that does not burn fuel.**

If one stack handles emissions from multiple pieces of process or control equipment, report stack data only once.

Show clearly which pieces of process or air pollution control equipment are associated with each stack. If the information on this form has not changed since 2022, RY22 Form AFS may be copied and submitted for RY23. :: Necessary elements are checked. Others are helpful, if available.
