

Block Island State Land (Black Rock/Rodman's Hollow) Lottery Deer Hunt Application Information

Summary

The deer management objective on Block Island is to reduce the deer population. The Division of Fish and Wildlife (DFW) maintains a lengthy deer season and unlimited antlerless deer bag limit in Zone 4 aimed at achieving this management objective. There are four separate, four-daylong (Tuesday-Friday) segments open to deer hunting on the Black Rock/Rodman's Hollow parcel from late January through February. Given the size (119 acres) and shape of the parcel, each segment allows no more than six hunters. We are currently seeking to reduce the deer populations and the goal is to fill all 24 permits.

All applications will be submitted online through the licensing website <https://rio.ri.gov/> or at DEM Licensing office at 235 Promenade Street, Providence. Applications cannot be submitted at license vendors such as Walmart or via paper copy mailed to the office.
