

26 November 2002

Mr. Roger R. Gieseke
General Manager
CCL Custom Manufacturing, Inc.
35 Martin Street
Cumberland, RI 02864

Dear Mr. Gieseke:

The Department of Environmental Management, Office of Air Resources has reviewed and approved your application for the installation of a new aerosol production line to be located at your facility at 35 Martin Street in Cumberland.

Enclosed is a minor source permit issued pursuant to our review of your application (Approval No. 1727).

I can be reached at 222-2808, extension 7011 if there are any questions.

Sincerely,

Douglas L. McVay
Associate Supervising Engineer
Office of Air Resources

cc: Cumberland Building Official

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
OFFICE OF AIR RESOURCES

MINOR SOURCE PERMIT

CCL CUSTOM MANUFACTURING, INC.

APPROVAL NO. 1727

Pursuant to the provisions of Air Pollution Control Regulation No. 9, this minor source permit is issued to:

CCL Custom Manufacturing, Inc.

For the following:

Installation of a new aerosol production line, line C09.

Located at: *35 Martin Street, Cumberland*

This permit shall be effective from the date of its issuance and shall remain in effect until revoked by or surrendered to the Department. This permit does not relieve *CCL Custom Manufacturing, Inc.* from compliance with applicable state and federal air pollution control rules and regulations. The design, construction and operation of this equipment shall be subject to the attached permit conditions and emission limitations.

Stephen Majkut, Chief
Office of Air Resources

Date of issuance

**STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS
DEPARTMENT OF ENVIRONMENTAL MANAGEMENT
OFFICE OF AIR RESOURCES**

Permit Conditions and Emission Limitations

CCL Custom Manufacturing, Inc.

Approval No. 1727

A. Emission Limitations

1. VOC emissions from the through-the valve (TTV) filling method shall not exceed 0.001 lbs per can.

B. Operating Requirements

1. The owner/operator shall limit production from aerosol production lines C07 and C09 to 45,420,000 cans or less for any consecutive 12-month period.
2. The owner/operator shall limit aerosol production from the entire facility to 250,000,000 cans or less for any consecutive 12-month period.
3. The owner/operator shall equip the new propellant-filling equipment with a non-leaking diaphragm booster pump.

C. Record Keeping and Reporting

1. The owner/operator shall, on a monthly basis, no later than 5 days after the first of the month, determine and record the number of cans filled on production lines C07 and C09 and for the entire facility for the previous 12 months.
2. The owner/operator shall notify the Office of Air Resources whenever the total quantity of cans filled on aerosol production lines C07 and C09 exceeds 45,420,000 cans for any consecutive 12-month period.
3. The owner/operator shall notify the Office of Air Resources whenever the quantity of cans filled by the UTC and TTV filling method for the entire facility for any consecutive 12-month period exceeds 250,000,000 cans.
4. The owner/operator shall notify the Office of Air Resources, in writing, of the anticipated date of the initial start-up of aerosol production line C09 not more than 60 days nor less than 30 days of the anticipated date.

5. The owner/operator shall notify the Office of Air Resources, in writing, of the date of actual start-up of aerosol production line C09 no later than 15 days after such date.
6. The owner/operator shall notify the Office of Air Resources of any anticipated noncompliance with the terms of this permit or any other applicable air pollution control rules and regulations.
7. The owner/operator shall notify the Office of Air Resources of any noncompliance with the terms of this permit, in writing, within 48 hours of the occurrence.
8. The owner/operator shall notify the Office of Air Resources, in writing, of any planned physical or operational change to any equipment that would:
 - a. Change the representation of the facility in the application.
 - b. Alter the applicability of any state or federal air pollution rules or regulations.
 - c. Result in the violation of any terms or conditions of this permit.
 - d. Qualify as a modification under APC Regulation No. 9.

Such notification shall include:

- Information describing the nature of the change.
- Information describing the effect of the change on the emission of any air contaminant.
- The scheduled completion date of the planned change.

Any such change shall be consistent with the appropriate regulation and have the prior approval of the Director.

9. All records required in this permit shall be maintained for a minimum of five years after the date of each record and shall be made available to representatives of the Office of Air Resources upon request.

D. Other Permit Conditions

1. To the extent consistent with the requirements of this permit and applicable federal and state laws, the facility shall be designed, constructed and operated in accordance with the representation of the facility in the permit application prepared by AMEC Earth & Environmental dated 24 September 2002.

2. Employees of the Office of Air Resources and its authorized representatives shall be allowed to enter the facility at all times for the purpose of inspecting any air pollution source, investigating any condition it believes may be causing air pollution or examining any records required to be maintained by the Office of Air Resources.
3. At all times, including periods of startup, shutdown, and malfunction, the owner/operator shall, to the extent practicable, maintain and operate the facility in a manner consistent with good air pollution control practice for minimizing emissions. Determination of whether acceptable operating and maintenance procedures are being used will be based on information available to the Office of Air Resources, which may include, but is not limited to monitoring results, opacity observations, review of operating and maintenance procedures, and inspection of the source.
4. The facility is subject to the requirements of 40 CFR Part 59, Subpart C, National Volatile Organic Compound Emission Standards for Consumer Products.
