

Memorandum

To: Joseph Martella, Rhode Island Department of Environmental Management (RIDEM)
From: Michele V. Leone, Manager, New England Site Investigation & Remediation
Date: 12/17/2010
Subject: Upcoming Site Response Action Report – Weeks of December 20 and 27, 2010
Former Tidewater Facility
Pawtucket, Rhode Island
RIDEM Case No. 95-022

As requested by RIDEM, the following summarizes response actions expected to be performed at the above-referenced site during the weeks of December 20 and 27, 2010. Due to the holidays and the low level of anticipated site activities, National Grid is providing a two-week look-ahead summary.

SITE ACTIVITIES TO BE PERFORMED

- Repair of recently placed loam. Certain loamed areas require repair following the heavy rains which occurred last weekend; and
- Continued well gauging and collection of surface soil samples consistent with the *Supplemental Site Investigation Work Plan (SSWIP)* dated November 23, 2009 and *SSIWP Addendum* dated October 15, 2010.
