**Subject:** Upcoming Site Response Action Report – Week of December 5, 2011  
Former Tidewater Facility

---

On behalf of National Grid, the following summarizes response actions expected to be performed at the above-referenced site during the week of December 5, 2011.

### SITE ACTIVITIES TO BE PERFORMED

- Complete site observation walk;
- Complete collection of precharacterization soil samples associated with earthwork areas related to proposed electrical substation upgrades;
- Complete restoration associated with natural gas regulator station upgrade; and
- Continue air monitoring during earthwork activities in accordance with the April 2011 Air Quality Monitoring Program (AQMP).

During and subsequent to the completion of the excavation work, certain above-ground activities (i.e., no excavation work) associated with the regulator station upgrades will be performed at the site.
