DIVISION	ASSET	DESCRIPTION	RADIO	LOCATION	REG	VEH	ACCOUNT
Air Resources	Arizona Instruments portable Jerome Sulfide Analyzers (2)	Battery operated (when batteries are functional) or power source. Handheld, provides PPM, internal memory. Can be place onsite in shelters.		235 Promenade St, Providence			1752-50100
Air Resources	McGee Aethalometers	Measure black carbon concentrations in micrograms/cubic meter at 5 min to hourly time resolution. Requires power/shelter.		235 Promenade St, Providence			1752-50100
Air Resources	Particle Counters	Gives a number of particles sampled. Is a good relative determination of clean/dirty air. Analyzer requires power/shelter. Unit is just a straight number. Internal memory/downloadable. Typically logs minute data.		235 Promenade St, Providence			1752-50100
Air Resources	Summa Canisters	VOC grab samples (typically 22 mins – but capable of 24 hrs) that are analyzed, speciated on a GC/MS at DOH lab. Provides a concentration in PPB.		DOH Lab, Orms St, Providence			1752-50100
Air Resources	Carbonyl Traps	Carbonyl samples that are analyzed at DOH and hourly concentration determined. Sampler requires power/shelter. Acetone, Formaldehyde and Acetaldehyde. Typically provides a 24 hour sample concentration, but capable of hourly.		DOH Lab, Orms St, Providence			1752-50100
Air Resources	PM 2.5/PM 10	BGI instruments, portable, and on tripod, requires filter change, filters sent out to outside party for analysis. Needs power source. Can get hourly concentrations up to 24 hours. Micrograms/cubic meter.		235 Promenade St, Providence			1752-50100
Air Resources	Beta Attenuation Monitors (BAMS) – PM 2.5 or PM 10	Requires shelter and power source. Provides hourly concentrations.		235 Promenade St, Providence			1752-50100
Air Resources	Polycyclic Aeromatic Hydrocarbon (PAH) Samplers	Sampler needs power/shelter, can provide resolution down to one minute. Internal memory, downloadable.		235 Promenade St, Providence			1752-50100
