2022 Air Pollution Inventory  
Crematoriums

Facility Name: \_\_\_\_\_

Contact Name: \_\_\_\_\_

Email Address: \_\_\_\_\_

**Crematory Operations 2022**

1. Do cremation operations occur on-site at your facility?

Yes – Human Matter      Yes – Animal Matter      No

2. What is the charge rate for the crematory unit (lbs)? \_\_\_\_\_

3. For human cremation please provide the weight of humans (or number of bodies) cremated on-site in 2022:

\_\_\_\_\_ Pounds      \_\_\_\_\_ Bodies

If available, please provide the number of cremations by age group:

Age Group (years)	Number of Bodies Cremated
<1	
1-4	
5-24	
25-44	
45-64	
65-74	
>75	

4. For animal cremation please provide the number of cats and dogs (or total weight) cremated on-site in 2022:

\_\_\_\_\_ # Cats      \_\_\_\_\_ # Dogs      \_\_\_\_\_ Total Lbs

## General Information

Please provide information on cremations performed onsite at your facility. If you do not perform cremations onsite and bodies are sent to a third party for cremation, please check off **no** on question 1 and mail the form in with the signed General Facility Information sheet sent with this form.

The Office of Air Resources requires permits for crematories meeting certain emissions thresholds. Please indicate if you have obtained an Office of Air Resources permit for your crematory operation.

The charge rate for the crematory unit is the maximum weight of matter that can be cremated in a single charge. Please provide this number in pounds.

If you have records of the total weight cremated in 2022, please provide that data. If the data is not available, please provide the number of persons or animals (cat/dog) cremated so an estimate of the total mass cremated can be determined.

In order to more accurately calculate mercury emissions from your facility data on the age of persons cremated is necessary. Please provide data in these categories if available.
