

MEMORANDUM

TO: S. Hayes (EPA WAM/SAM)

FROM: R. Merkl, Task Manager *RM* DATE: 08/07/92
THRU: J. Boesch, Site Manager

PROJECT: Region I ARCS W.O. NO.: 4100-09-29-0004

SUBJECT: Trip Report -- Site Reconnaissance and Sampling
Boliden Metech, Inc.
Providence, Rhode Island
CERCLIS No. RID981885023
TDD No. 9104-42-AWS
Work Assignment No. 09-1JZZ

The WESTON/ARCS team conducted a site reconnaissance and sediment sampling on July 29, 1992 at the Boliden Metech, Inc. (Boliden) site in Providence, Rhode Island. An on-site reconnaissance was not performed as the property owner would not provide access to WESTON/ARCS. WESTON/ARCS personnel present during the environmental sampling were Mr. Tony Andronico and Mr. Robert Merkl. All samples were collected off-site in the Providence River (Figure 1)(Table 1). Site activities were conducted in accordance with the reviewed and approved Task Work Plan dated June 25, 1992 and site Health and Safety Plan.

Samples were submitted for pesticide/PCBs and total metals analyses through the EPA Contract Laboratory Program. Split samples were not applicable as all samples were collected off-site.
