

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS
Department of Environmental Management

INTER-OFFICE MEMO

DATE: December 21, 2010

TO: File

FROM: Ross Singer
Office of Waste Management
Site Remediation Program

SUBJECT: Boliden Metech
434 Allens Ave
Providence, Rhode Island
Case No. 99-060

Uncovered stock piles of soil were observed along Allens Avenue. Edward Sciaba of Rhode Island Recycled Metals was contacted to ascertain the circumstances of disturbance of the cap. Mr. Sciaba informed me that the water main broke and had to be dug up. I informed Mr. Sciaba that the stockpiles had to be covered and the Department must be notified of any future soil work.
