C/P reporting shots being fired since 1100, shots are repetitious.

Narrative: **03/03/2024 1555 RYAN, EMILY**  
Spoke to CP grandson James Vandal who has access to the property via a gate on his farm and he stated he believes the shots were coming from a neighboring property. Based on no evidence of tracks in the management area and the muddy condition of the trails a person would not be able to access the area with large quantities of firearms and ammo. After looking at OnX it is possible the shots were coming from the neighboring property owned by James Toste, unable to confirm at this time. Call will be sent to Tiverton PD. Multiple hikers/dogwalkers also stated they heard shots coming from the same direction the CP and her grandson had stated they heard them.

 Caller looking for information on closures. Caller was frustrated as he spent an hour on the phone with someone in WR and still was as confused as he was when he first called. WR referred caller to DLE as we are "in the trenches". Guided caller through on line maps, reviewed legend and provided caller with the number to the shellfish closure line. He was satisfied and had a better understanding of the system.

 Resident having a problem with a neighbor that has done some excavation work on his property and it is causing flooding on her property when it rains. She contacted the town which advised that she would have to petition the town council which she is unwilling to do and is hoping that we can assist her. I advised that is not something that we at LE would handle and she adhere to the towns suggestions.

U28 and I spoke with the party who has been camping out at Pier #9. Dennys Teixeira informed us that he is homeless and just looking for work.

Teixeiras vehicle, MA 1XCK25, is unregistered and his license is suspended. Texeira was issued an RITT for unregistered vehicle on state property.

Teixeira was fully cooperative and stated that he is just looking for work to feed his family and dog. We informed him that we will not be towing his car but he is no longer allowed to sleep at Pier #9. I told Teixeira that we will work with him to get the ticket reduced to a warning if he works to get his license and register the vehicle.

Raccoon fell out of tree yesterday and is now in her yard drinking water out of pool, and unsteady. I advised her to keep her distance to let it be. From description of the symptoms, I advised it just sounds like it hurt its leg but it is still healthy enough to drink/eat/move around.

Reporting a group fishing and keeping undersized striped bass. States they have been there since 3:30 and more people have come to join them so they don't believe they are leaving anytime soon. Described one male in a green shirt and driving a black truck.

Narrative: **03/14/2024 1753 RYAN, EMILY**  
Group of four not engaged in fishing, one sitting in vehicle with fishing pole but stated he was not fishing and showed his fishing license. No one matching the description or vehicle description. Two arrived while I was there and had valid fishing licenses.

Narrative: **03/14/2024 1753 RYAN, EMILY**  
One that arrived later stated he has been fishing since December and has caught slot size and smaller but releases all he catches.

 Seafreeze had x-tubs in the building filled with fluke from Heritage. I was told it would not be weighed until 1000 hrs. I asked the manager for the day how much fluke could be in the tubs and he said 3000#. Heritage had already landed a minimal amount of fluke this aggregate period so it was less than 3000#. Had a discussion with the manager who said he didn't have the staff to weigh the fish at the moment. I will follow up with floor manager at a later date in regards to how they are accepting fish without obtaining weights at the point of transfer.

Caller advising stand has not been erected for too long. Land is strongly posted and there is a sign right by the tree stand.

Narrative: **03/19/2024 1607 MELESKI, JAKE**  
Tree stand (41.49239, -71.78150) and trail camera (41.49251, -71.78153) located on TNC property. OnX revealed the stand is within 200 feet of 4 dwellings

Narrative: **03/19/2024 1639 MELESKI, JAKE**  
Modified By: **03/19/2024 1640 MELESKI, JAKE**  
No bait located in the area. Cheryl Swinconeck at TNC wants to come look at the stand. I'll be in contact with her regarding further action at the Canochet Preserve

Narrative:

**03/19/2024 1530 BEUTH, JOSHUA**

While conducting a boarding I observed gray dodge operated at a high rate of speed go through stop sign from dragger lot to west bulkhead access road and pull up quickly behind another truck at Town Dock. I recognized the operator as McCavanaugh. When McCavanaugh went to leave 5 minutes later he did a 25+ foot long burnout approximately 30 feet from my patrol vehicle and proceeded to travel at an estimated 70mph + up the escape road

 Spoke with both calling parties. Located 1 center point and 3 headhunter crossbow bolts stuck in trees. No blood or fur on any of the bolts. No evidence of a deer harvest anywhere on the property. Landowner now has trail cameras set up and will call us with anything he captures. OnX pins dropped.

 Barone subject appeared to be unstable and kept mentioning people that were out to get him. Stated on multiple occasions he will "fight to the death" with anyone that trespasses on his property. I advised him that this should be handled the proper way if he has any idea who is hunting his land. Would not provide me with any names because he is "not a rat."

 Reporting raccoon behind patio set/stairs that is screeching and shaking. Unsure if injured or possibly stuck. She believes it does have a way out, but it is acting odd.  
  
 Narrative: **03/21/2024 1902 RYAN, EMILY**  
 Raccoon was curled up behind a tree on my arrival and climbed up the tree as I was attempting to contain it. Advised CP to be cautious with pets and kids outside and call back if the raccoon comes down or he finds it in the yard. Confirmed CP dogs are up to date on vaccines.

Narrative: **03/24/2024 1850 LEWIS, TRACEE**

Report of an opossum running around the intersection. Caller

stated its been there for at least 10 mins and it just doesn't seem right.

**Narrative: 03/24/2024 1908 ESTRADA, KATHERINE**

Same caller via 911 line. Now has Opossum in cage, was feeding it. I advised to not do that and that we will have someone get it.

**Narrative: 03/24/2024 2012 RYAN, EMILY**

Opossum released and monitored, it walked across the roadway and into the wooded area across the street. Behavior was normal. Advised CP that relocating wildlife is illegal and to call back if the opossum returns and is exhibiting odd behavior. CP was given dispatch number and told to call that number instead of 911.

Subject has been attempting to contact the Division of Agriculture for the last 45 minutes in an attempt to report a violation that he has been advised of. States there is an individual purchasing chicks from CT and selling them in RI. The subject in question is not licensed, the birds are not vaccinated and there are reports that they have lice and are infecting coops in which they have been placed. The complainant has received several complaints regarding this situation and he is well aware of the laws and is himself compliant with DEM and would like this violation addressed. I referred him to Dr. Marshall's email to report the violation and advised him that I would also email his complaint.

Subject walked by a piping plover on the beach and on his way back it was dead, he found that strange so he bagged it and is now looking for somewhere to bring it to have it looked at. I asked if he handled with his hands and he stated no and he wasn't worried about that but what may have happened to the bird. I advised about avian flu and that precautions should be taken with all birds. I gave him the number for Alisha from the WLC for direction.

States there is a rabid raccoon in her yard. States it has white eyes, and is clenched over. Unhappy that it is there as there is children playing outside.

Narrative: **03/30/2024 1718 ESTRADA, KATHERINE**  
Spoke with calling party, Raccoon is still there, and all the neighbors are concerned.

Narrative: **03/30/2024 1801 RYAN, EMILY**  
Raccoon was in the yard digging in the yard for food. As soon as I approached it ran off. It did appear to have some sort of vision issue but was able to navigate to the woodline and climb up a tree. I observed it climb down and wander further into the woods away from the neighborhood. I advised the CP to call back if it returned and to continue to haze the raccoon with the hose and loud noises as she had been doing.

Narrative: **03/30/2024 1802 RYAN, EMILY**

Reporting injured goose. leg injury, unable to walk and is just laying there eating.

Narrative: 03/31/2024 2119 ESTRADA, KATHERINE  
Spoke with caller, he doesn't see it anymore as it usually moves overnight. But believes it does have a leg injury as it is not able to walk and is the reason it has been staying in the area for multiple days since it can't take off. Advised him that if its back in the morning he can call back.
