Ms. Blauvelt,

The Pawtucket School Department (PSD) is eager to collaborate with RIDEM for the development of a new Pawtucket High School on the McCoy Stadium site. Recognizing that this is a non-school location, we acknowledge the necessity of RIDEM's assessment and approval for the site's designation as a school site. PSD has submitted a Stage II funding application to the Rhode Island Department of Education and anticipate an approval by the end of December 2023. Once the approval is received, and the development team is established, PSD will continue our collaboration with RIDEM on this exciting and worthwhile project. For your review, we have included the Site Control Resolution included in the Stage II application to RIDE.

Sincerely,

Patricia Royal, Ed. S.
Superintendent of Schools
