

# Rhode Island State Wildlife Action Plan

## HAVE YOU SEEN US?

*Rhode Island's wildlife needs your help!*

### HOW TO HELP:

#### Take an Online Survey:

Share your thoughts and feedback on the plan.

#### Join a Community Workshop:

Attend one of our public workshops this spring.

#### Review and Comment:

Help shape the plan during the formal comment period.

**Together, we can make a difference for RI's wildlife!**

### The Rhode Island Wildlife Action Plan (RIWAP)

is part of a national effort to conserve wildlife and natural spaces for future generations. It identifies species at risk in our state, evaluates the health of their environments, and outlines actions to address threats to their survival. The RIWAP helps by funding:

**Public Outreach  
& Information**

**Species Research  
& Monitoring**

**Land Conservation  
& Habitat Protection**

**Data-Driven  
Management**

The Rhode Island Department of Environmental Management (DEM) is working on the 2025 update with The Nature Conservancy, the Rhode Island Natural History Survey, the University of Rhode Island, and other partners, including the Audubon Society of Rhode Island and Roger Williams Park Zoo.
