Dredge-Marine Dredging and Associated Activities

1. Navigate to <https://demri.my.site.com/owr>
2. Click "Start an Application"

3. Click "Select" next to the Program you wish to apply for

4. Click "Select" next to the Application under the program you wish to apply for

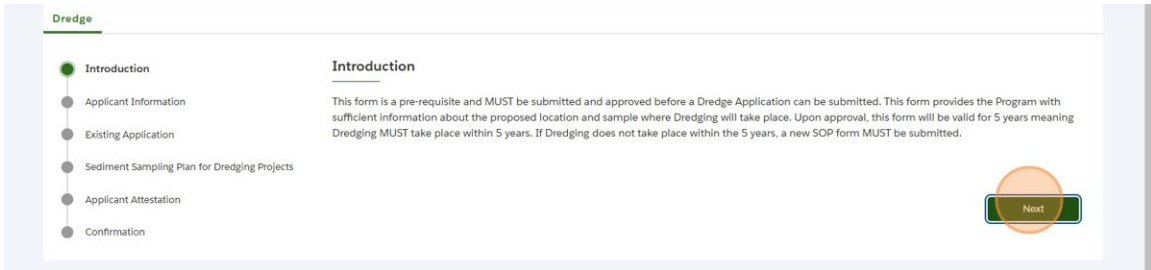

5. First is the Pre-Screening Screen

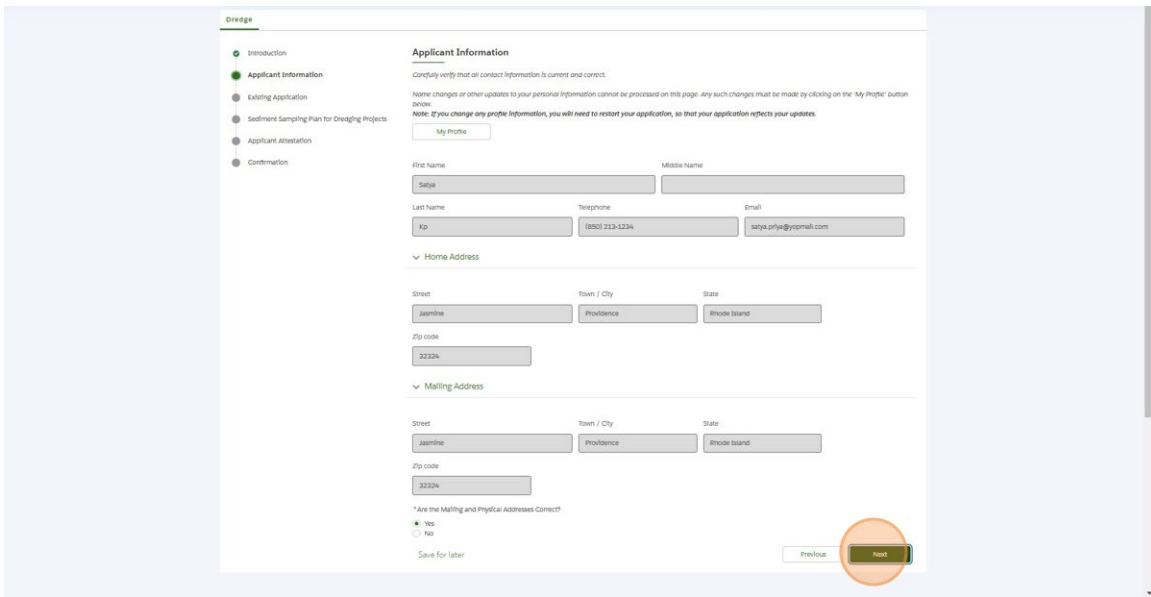

6. Click "SOP form"

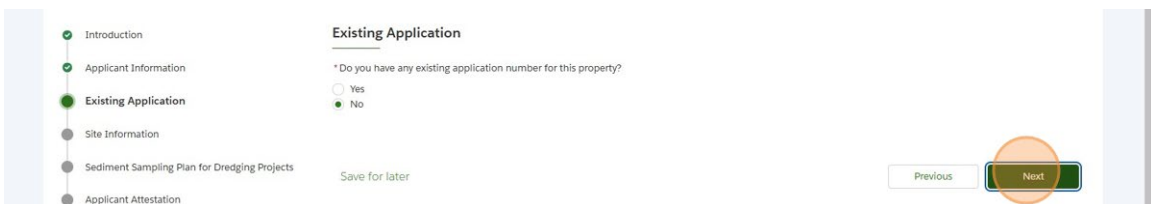

7. First is the Introduction Screen. Upon reading all the information, click Next to proceed.

8. Next is the Applicant Information screen. Carefully review this information. If you wish to make any changes, scroll to the top and click 'My Profile'. Please note – if making changes, you MUST restart the application for the new changes to apply.

9. Next is the Existing Application Screen. Click Next

10. Next is the Site Information Screen. Fill in all the fields, then click Next

11. Next is the Sediment Sampling Plan for Dredging Projects Screen. Complete the fields and click on Add Location

12. Select Disposal Location and then click on Save

13. Click "Next"

Submit Proposed Analysis and detection limits depending on disposal location. The detection limits for an analyte should be no greater than one-third (one-half log unit) of the appropriate value for the analyte and matrix of concern. Whenever possible, an MDL of three to five times below the criteria is expected. If the criteria are Non-Detect then the procedures USE AND MRLs set forth in the OTM (USEPA and USACE 1991) below are appropriate to follow. In-water disposal must meet all Army Corps Requirements.

Add Location

| Disposal Location | Cadmium | Chromium | Mercury | Lead | Grain Size | %Moisture | TPH |
|--------------------------------|------------|----------|-----------|------|------------|-----------|--------|
| Commercial/Industrial Exposure | 1000 mg/kg | | 610 mg/kg | | | | 2500 n |

* For each arachlor **For Beach Criteria - any other MRL should be at least three to five times below the criteria
 1 Residential Direct Exposure Criteria are defined in Table 1 in Section 8 of the Rules and Regulations for the Investigation and Remediation of Hazardous Material Releases.
 2 Commercial/Industrial Direct Exposure Criteria are defined in Table 1 in Section 8 of the Rules and Regulations for the Investigation and Remediation of Hazardous Material Releases.
 3 GA Leachability Criteria are defined in Table 2 in Section 8 of the Rules and Regulations for the Investigation and Remediation of Hazardous Material Releases.
