

Freshwater Wetlands Determination or Permit New Freshwater Wetlands Permit With Variance

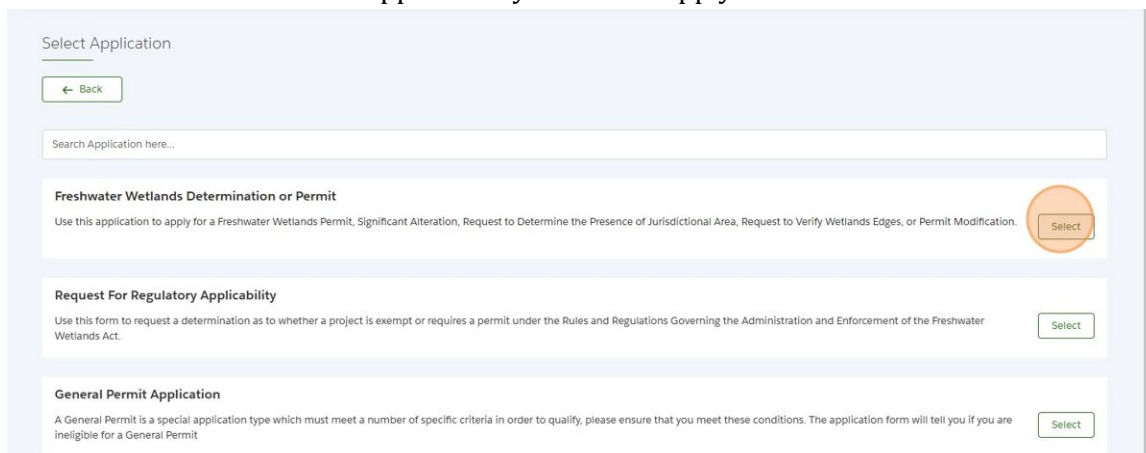

1. Navigate to <https://demri.my.site.com/owr>
2. Click Applications ->Start an application

3. Click "Select" next to the program you wish to apply for

4. Click "Select" next to the application you wish to apply for

5. First is the Introduction Screen. Upon reading all the information, click Next to proceed.

Introduction

Welcome to the RIDEM Freshwater Wetlands Application Portal.

This application covers New Freshwater Wetlands Permits, Significant Alterations, Permit Modifications, Determination of Jurisdictional Areas, and Verification of Wetland Edges application types. Depending on which you are applying for, you will be prompted to upload different materials in order to facilitate the review of your project.

Generally, these materials include a digital copy of your Site Plans, Project Narrative, identify any professionals associated with the project, and materials required for Stormwater review, if necessary.

If you are attempting to apply for a **Joint Freshwater Wetlands and On-Site Wastewater Treatment System (OWTS) Permit**, please click the link below:
<https://demri-uat.sandbox.my.site.com/owr/s/owts-construction-permit?licenseId=0eh350000023WLQAY>

Please be advised that this portal is not for submitting applications within a certain proximity to the coast. If you are in a relatively coastal area, please consult DEM's Environmental Resource Map: <https://dem.ri.gov/online-services/data-maps> and enable "Wetland Jurisdiction" within the "Bounds and Regulatory Overlays" layer to see if your property is within DEM or CRMC jurisdiction. If you are within CRMC jurisdiction, please proceed with your application on the CRMC Website: <http://www.crmc.ri.gov/applicationforms.html>

Next

6. Next is the Applicant Information Screen. Carefully review all the information. If you need to make changes, scroll to the top and click on 'My Profile' to make the edits. **Restart the application for the new changes to apply.**

Application Preparer's Information

Confirmly verify that all contact information is current and correct.

Name changes or other updates to your personal information cannot be processed on this page. Any such changes must be made by clicking on the 'My Profile' button below.

Note: If you change any profile information, you will need to restart your application, so that your application reflects your updates.

Important: If the Application Preparer identified here is not an owner of property subject to this application or is not authorized to sign on behalf of an owner through an executed Power of attorney, note that each owner will need to sign the application before it can be submitted to the department. You must ensure that the principal owner that is to sign the application has created a User Account in this portal so that they can receive prompts to sign this application. If they have not yet created an account, click "Save for later" at the bottom left and return to complete this form once the principal owner (or owner representative for any owner entity that is not an individual person) has created their User Account. If the application is for a property that is either owned by multiple additional owners or spans multiple properties with different owners, you will also be prompted to upload owner signature documents near the end of this form.

7. Next is the Person Submitting Screen

Person Submitting

If the property subject to this application consists of a lot owned in part by multiple individuals or consists of multiple lots that are owned by different individuals or companies/agencies/organizations, fill this out to reflect the nature of the principal owner/applicant. The form will allow the entry of information for each other co-owner/applicant.

* Choose the best option

I own the site as an individual.

The site is owned by a company, corporation, association, non-profit agency, partnership, estate, municipality, governmental agency or other similar entity, and I am an authorized officer or official of the owner.

I am an individual who has been granted power-of-attorney to sign/attest to the application on behalf of the site owner (a valid, notarized copy of the Power of Attorney Document will need to be uploaded at the "Upload Documents" step)

I am a professional consultant authorized to prepare the application on the owner's behalf, with the owner(s) separately attesting to the application on-line.

8. Next is the Application Type Screen

The screenshot shows the 'Application Type' screen. On the left is a vertical navigation menu with items: Introduction, Application Preparer's Information, Person Submitting, Application Type (highlighted), Existing Application, Add Plat/Lot, Owner/Professional Information, Project Information, Application Preparer's Attestation, and Fee Information Assistant. The main content area is titled 'Application Type' and includes a sub-header '* Choose the right option'. There are four radio button options: 'Request to Determine the Presence of Jurisdictional Area', 'Request to Verify Wetland Edges', 'New Freshwater Wetlands Permit' (selected), 'Application for Significant Alteration', and 'Permit Modification'. Below this is a text block: 'New Freshwater Wetlands Permit - This is the most common application type and is used for almost all projects which will involve alterations within jurisdictional areas and buffer zones. Depending on the specifics of the project proposed, it may require Variances and/or engineering review associated with Stormwater Rules, which will require additional documents to be uploaded.' There is a checked checkbox for 'with Variance'. A link reads 'Here's the link to Joint OWTS/Wetlands PD form : OWTS/Wetlands PD form'. At the bottom are 'Save for later', 'Previous', and 'Next' buttons.

9. Next is the Existing Application Screen.

If answer = Yes, you will be asked to look up an existing application number & the Site Information will be auto populated with the site you looked up

If answer = No, you will be able to proceed to the next screen & will be required to manually enter the site information

The screenshot shows the 'Existing Application' screen. The left navigation menu is the same as in the previous screen, but 'Existing Application' is highlighted. The main content area is titled 'Existing Application' and includes a sub-header '* Do you have the reference number for any previous or current applications or permits on record?'. There are two radio button options: 'Yes' and 'No' (selected). Below this is another sub-header '* Would you like to provide information for this site to determine if RIDEM has an existing record for this site?' with 'Yes' and 'No' radio button options. At the bottom are 'Save for later', 'Previous', and 'Next' buttons.

10. Next is the Site Information Screen.

The screenshot shows the 'Site Information' screen. The left navigation menu is the same, but 'Site Information' is highlighted. The main content area is titled 'Site Information' and includes a sub-header 'Site Address'. It contains several form fields: 'Street Address', 'Town/City', 'State', and 'Zip Code'. Below these are fields for 'Parcel Identifying Number', 'Distance to Nearest Property Line (across street intersection)', 'Distance to Property Line (across street intersection)', and 'Distance to Property Line (nearest street intersection)'. There are also checkboxes for 'Does the project site include a stormwater system?' and 'Please make sure to enter the 6-10 digit parcel identifying number that you are linking your project to the correct site. DO NOT input zeros for the third digit of the address or telephone number as the actual system for that location of your project.' Below this are fields for 'Latitude (State with 0 or 12, followed by 6 decimal numbers)', 'Longitude (State with 76, followed by 6 decimal numbers)', and 'Owner Details'. The 'Owner Details' section includes fields for 'Project ID', 'Organization', 'Organization Website', 'Organization Name', 'Organization Type', 'State', 'Town/City', 'State', and 'Zip Code'. At the bottom are 'Save for later', 'Previous', and 'Next' buttons.

11. Next is the Add Plot/Lot screen. Click on Add New

12. Enter Plat, Lot and Block Numbers and Click on Save.

13. Click "Next"

14. Next is the Owner/Professional Information Screen

15. Next is the Project Information Screen

Project Information

Project Name:

*Project Type: *Project Size: *Unit:

Urban Region Region 1 Region 2

Is the project located within a Drinking Water Supply Reservoir Watershed (DWSRW)? Yes No

Is the project located within a Natural Heritage Area? Yes No

Have rare wetland types or rare species been documented? Yes No

Does the project propose any of the following? Clicking any of the three radio buttons should merely prompt additional stormwater-related questions or identify the application as one needing an engineering review. There is no longer any need for a separate Application for Stormwater Construction Permit when submitted through the FWW program.

New or increased impervious cover for property other than a single family home? Yes No

Disturbance of more than 10,000 sq. ft. of existing impervious cover? Yes No

Proposes any fill of floodplain, any work within floodway, or involves any hydraulic alterations to watercourse via bridge, culvert or diversion? Yes No

Does this project require a variance from the Freshwater Wetlands Standards? Yes No

Have you participated in a pre-application meeting with RIDEM on this project? Yes No

Is municipal master plan approval required for this property? If yes, submit a copy of the approval. Yes No

Save for later

16. Next is the Upload Documents Screen. Click the icon(s) to add applicable (files).

Upload Documents

Document Name	Document Description	Uploaded Files (Multiple file upload)
*Project Narrative	A written description of the project including the purpose, size, and location of the project, as well as how potential wetland impacts have been avoided to the maximum extent possible. *If a proposed project does not meet all of the standards specified in § 3.7.1, an applicant must provide a narrative description documenting how the proposed project will satisfy the [variance criteria] (hyperlink: https://rules.sos.ri.gov/regulations/part/250-150-15-3) specified in § 3.7.3'	
*Site Plans	Plans drawn to a scale no smaller than one inch (1") equals one hundred feet (100') (1" = 100'), with title block, original date of the plan, inset locus map, legend describing all markings or symbols, magnetic north arrow, entire property boundaries depicted, sufficient fixed referenced points, and accurate scale. For more information, see [Wetland Rule 3.8.4 & 3.8.5] (hyperlink: https://rules.sos.ri.gov/regulations/part/250-150-15-3) *Stamped and Signed by Rhode Island Professional Engineer (if engineering review required)*	
Local Master Plan Approval	Local Master Plan approval; or (2) Local conditional approval of a combined Master and Preliminary Plan; or (3) A letter from an authorized municipal official (the Administrative Officer) certifying compliance with local low impact development site planning and design requirements as contained within the local zoning ordinance, land development and subdivision Regulations or other pertinent Regulations.	
Site Work Affidavit	Site work affidavit required for upload.	
Supporting Documents	Any additional information that will help facilitate biological and/or stormwater engineering review (e.g., site photos, GPS shape files, redevelopment impervious coverage map, documentation involving known/potential site contamination, concentrated hydraulic loading feasibility map, etc.).
