East Providence, RI
Map 107/Plat 15/Lot 101

Dear Ms. Mitchell:

At its meeting on April 21, 2026, the East Providence City Council voted to request a Community Meeting on the above-mentioned project. Pursuant to Section 1.8.7(c) of the Remediation Regulations, the purpose of the meeting is to “disseminate information about the Department’s Site Remediation program and specific contaminated site of interest; document community comments and concerns about the investigation, clean up, and reuse of the Contaminated-Site; and engage in a dialogue with the public about the Contaminated-Site”

As you know, the development of this parcel has generated some community interest, and in order to ensure convenient access to East Providence residents, the City Council respectfully requests that any such meeting be held in the City and at a convenient place and time after normal work hours.

In order to assist you in finding a forum for this meeting, the City Council is willing to allow your department to use the City Council’s chambers at City Hall or some other similar location (i.e. public library, senior center). Please feel free to contact our City Clerk, Andreza (Andy) Skipworth, 401- 435 -7560, who can assist you if necessary, with scheduling.

Thank you for your consideration of this request. If you need any further information, please do not hesitate to contact me directly.

Sincerely,

Robert Rodericks
President, East Providence City Council
