Re: National Grid LNG LLC, Docket No. CP16-121-000
Fields Point Liquefaction Project
Monthly Status Report for April 2019

Dear Secretary Bose:

On October 17, 2018, the Commission issued the Order Issuing Certificate (“Certificate Order”) granting a certificate of public convenience and necessity to National Grid LNG LLC (“National Grid”) in the above captioned docket for the Fields Point Liquefaction Project (the “Project”). National Grid LNG LLC, 165 FERC ¶ 61,031 (2018). National Grid filed its acceptance of the certificate of public convenience and necessity on October 29, 2018 and the Implementation Plan was filed on November 1, 2018.

As required by Environmental Condition 8 of the Certificate Order, National Grid is submitting the Monthly Status Report for the April 2019 reporting period. If you have any questions about this submission, please contact me at 781-907-3575.

Respectfully submitted,

/s/ Patrick A. Chaney

MONTHLY STATUS REPORT FOR APRIL 2019

Update on Federal Authorizations

As previously reported in the report for December 2018, all required Federal authorizations have been received.

Project Schedule – Construction Status and Work Planned

The overall project schedule was filed on December 21, 2018, as Attachment 19-2 to the request to proceed with pre-initial site preparation and a variance request.

Work Accomplished in April:

1. Air monitoring in accordance with the approved Rhode Island Department of Environmental Management Short Term Response Action Plan is ongoing and continued throughout the month of April 2019.

2. The Special Inspector mobilized to the site on April 1.

3. Test Piling continued through the month of April.

4. Training in the Environmental Inspector’s (“EI”) duties continues and will be ongoing for all new personnel for the full duration of the Project on a weekly basis and/or as needed. Nine trainings were provided during the month. Attendees included National Grid employees, Kiewit employees, and site workers and supervisory personnel.

5. Other work performed:
   - The office trailers set in place, provided with temporary power, and in use; trailer fit out continues;
   - Temporary fence installed and existing fence demolished along Liquefier site;
   - Transformer containment and concrete pad installed;
   - Temporary switchgear pad cast with purpose built shed; switchgear installed;
   - Laydown yard area fabric and stone installed;
   - Soils stockpile bins erected, paved, and in use; and
   - Environmental controls maintained on site.

Work Planned for May:

- Finish Test Pile Program; both driven and micro piles;
- Production Piling for the Stabilization Wall;
- Finish Installation of Temporary Electric Service;
- Finishing the office complex, including decking and ramps; and
- Install perimeter security fencing.
### Problems Encountered and/or Instances of Non-Compliance and Corrective Actions

The problems encountered, contractor nonconformance/deficiency logs, and each instance of noncompliance observed by the EI during this reporting period are shown below along with the corrective and remedial actions taken and the effectiveness of the implemented actions.

**Landowner/Resident Complaints**

None during this period.
Correspondence Received From Other Agencies Concerning Noncompliance

No correspondence was received concerning instances of noncompliance from other federal, state, or local permitting agencies

Special Inspector’s Report

Construction Activities Observed during the reporting period:
  • Installed 14in and 16in driven test piles this month; and
  • Reaction piles installed.

Discrepancies reported to Contractors:
  • None

Uncorrected discrepancies reported to Engineer of Record:
  • None

All work requiring special inspection was, to the best of my knowledge, in conformance with the approved plans and specifications and the applicable workmanship provisions.

Yes  X  No  See discrepancies list above
