**Subject:** [EXTERNAL] : 642 Allens Avenue - Notification of Upcoming Maintenance Activities  
**Date:** Monday, July 22, 2019 5:01:55 PM  
**Attachments:** [image002.png](#)

---

Hi Joe:

This email is to notify the RIDEM Office of Waste Management of upcoming maintenance and repair projects associated with critical facility infrastructure at the 642 Allens Avenue property located in Providence, Rhode Island (herein referred to as the Site), in accordance with the September 2012 *Soil Management Plan (2012 SMP)*.

These maintenance and repair activities will be performed in accordance with the existing 2012 *SMP*. The following maintenance and repair projects are currently scheduled for the facility:

- Utility pole replacement work (expected to begin in late July – August 2019);
- Hydrant installation (expected to begin in late July – August 2019); and
- Gate repair (expected to begin in late July – August 2019).

The locations of these projects is shown on the below aerial map of the Site.

The work involved in these projects is necessary to maintain day-to-day operations at the Site. The work will include soil and groundwater activities that are not subject to the June 2017 *Public Involvement Plan (PIP)*. As detailed in Section 1.1 of the *PIP*, the *PIP* does not apply to work necessary to maintain day-to-day operations at existing facilities or facility emergencies, including repairs and maintenance of the natural gas regulating facility, compressed natural gas fueling station, liquefied natural gas facility, and cement distribution facility, or for projects involving minor soil disturbances only (e.g. utility work, installation of fence posts, etc.).

All areas disturbed by these projects will be completed with a RIDEM-approved engineered cap consistent with the 2012 *SMP*. In addition, real-time work area perimeter air monitoring will be performed consistent with a Site-specific Health and Safety Plan and the 2012 *SMP*.

The above projects are not related to the liquefaction project and are in addition to the work detailed in the letter dated January 8, 2019.

The maintenance and repair projects will be documented in accordance with the 2012 *SMP* in an annual summary report that will be submitted to RIDEM.

Thank you! Please let us know of any questions or comments.  
Sophia
