RI Department of Environmental Management
Environmental Land Usage Restriction (ELUR)
Annual Compliance Self-Evaluation Form
(Please type or print)

Site Name: Queen Ann Square          Property Owner: City of Newport
RIDEM File No.: 2012-010          Owner Mailing Address: 43 Broadway
RIDEM Project Manager: Joseph T. Martella          Newport RI 02840
ELUR Recording Date: ________________ Inspection Date: 12/29/20
Owner Telephone Number: 401-845-5802          E-Mail: swheeler@cityofnewport.com

This Annual Compliance Self-Evaluation Form is not appropriate for use on sites that require the use of any active remediation systems (e.g. active SSDS, ongoing air or groundwater monitoring, etc.) unless explicit, written permission has been granted by the Department.

1. Site Description

   a. Site Address: Queen Anne Square, bordered by Thames St, Mill St & Church St, Newport RI 02840
   b. Plat: 24 Lot(s): 346
   c. Is the ELUR applicable to the entire site?
      __X__ Yes  _____ No
      If no, please describe the portion of the property subject to the ELUR: 
      __________________________________________________________________________
   d. What does the ELUR restrict? (Select all that apply)
      _____ Residential Uses
      _____ Groundwater
      __X__ Exposure to Site Soils
      _____ Infiltration of Water
      _____ Subsurface Structures
      _____ Other (Please Explain): ____________________________

2. Groundwater

   a. Are there any known or observed groundwater wells present?
      _____ Yes  __X__ No
   b. Are these well(s) used for drinking water?
      _____ Yes  ____ No  __X__ Not Applicable
      If no, please state what they are used for (i.e. irrigation, cooling, etc.): 
      __________________________________________________________________________
   c. Are there environmental monitoring wells present?
      _____ Yes  __X__ No
3. **Engineered Controls** (e.g. asphalt, concrete, building foundations, landscaped areas, etc.)

   a. Please provide a brief description of the engineered control(s) (e.g. building foundations, one foot of clean fill over a geotextile liner, etc.):

   *Vegetative and mulch cap over 12” of approved fill and soil over approved geotextile.*

   b. Overall Condition of Engineered Control(s)
   
   - X Good
   - Non-compliant
   - Acceptable
   - Not Applicable (Sites where only groundwater is restricted)

   c. Are there any areas on the property that have broken concrete, cracked asphalt, potholes, eroded landscaping, etc.?
   - X Yes
   - No

   If yes:

   Please provide a description of the area(s) of concern:

   *The lawn adjacent to Mill Street continues to improve thanks to the fence installed in 2018 to redirect pedestrian foot traffic form behind the “Chimney” sitting room. Maintaining grass along Mill St continues to challenging because of the limited sunlight requiring regular reseeding with shade tolerant grass. The heavily used entrance opposite Starbucks at the intersection of Church and Thames Street is showing some minor erosion beside the brick walkway that will require topdressing and seeding in 2021.*

   *Could water infiltrate through these areas into underlying contaminated soils?*
   - Yes
   - No
   - X N/A; Infiltration Not Restricted

   When will the area(s) of concern be repaired?

   d. Has there been any soil disturbance or excavation into the cap (engineered control) in the last year?
   - Yes
   - X No

   If yes:

   How large was the area of disturbance?

   Please provide the reason or cause for disturbance or excavation:

   *Was this disturbance or excavation approved by the Department?*
   - Yes, Date of Approval:
   - No

   *Was the Soil Management Plan (SMP) properly followed?*
____ Yes _____ No

If no, please explain: __________________________________________________________
____________________________________________________________________________
____________________________________________________________________________

Was any soil taken offsite?
_____ Yes _____ No

e. Within the past year has there been any construction at the property unauthorized by the
department?
_____Yes _____ X No

If yes:

Please explain:

Did this construction disturb site soils, the existing building or capped surfaces
(asphalt, concrete, or landscaped areas)?
_____ Yes _____ No

If yes, please specify:

f. Have there been any subsurface structures (underground storage tanks, below grade
foundations, septic systems, storm water systems, french drains, etc.) constructed or
installed since the remediation was completed?
_____ Yes _____ X No

If yes:

Please Explain: _________________________________________________________________
____________________________________________________________________________

Was permission of the Department’s Office of Waste Management obtained?
_____ Yes, Date of Approval: __________________________

_____ No

g. Condition of landscaped areas
_____ Good _____ X Acceptable _____ Non-compliant _____ N/A

h. Does this site effectively limit exposure to contaminated subsurface soil?
_____ X Yes _____ No

4. Property Use
a. Are there any residential uses on the property (i.e. houses, apartments or condominiums, etc.) except as previously agreed upon by the Department?
   _____ Yes  _____ X  No
   If yes, please explain: ___________________________________________________
   ____________________________________________
   ____________________________________________

b. Are there any schools, daycare facilities or recreational facilities on the property except as previously agreed upon by the Department?
   _____ Yes  _____ X  No
   If yes, please explain: ___________________________________________________
   ____________________________________________
   ____________________________________________

c. Has the property use changed in anyway since the ELUR was recorded?
   _____ Yes  _____ X  No
   If yes, please explain: ___________________________________________________
   ____________________________________________
   ____________________________________________

5. Fencing (if applicable)

   a. Overall Condition of the Fencing
      _____ Good  _____ Acceptable  _____ Non-compliant  _____ X  No Fence Required

   b. Does the fencing effectively limit the ELUR area?
      _____ Yes  _____ No  _____ N/A

6. Overall Assessment

   Does this site meet the standard imposed in the ELUR?
   _____ X  Compliant  _____ Non-compliant
7. Observations, comments, and areas of concern

The quality and health of the QAS vegetative turf cap continues to improve as organic matter content of the soil improves from mulched lawn clippings and more tolerant grasses and weeds continue to migrate into the original blue grass sod. An extended drought over the summer of 2020 did require the continual operation of the irrigation system to maintain good turf quality at a significant expense. As funds allow after the completion of fountain repairs the trustees intend to replace the blue stone stepping stones with a brick sidewalk. The intent is to limit excavation for the pavers to the depth required for a compacted bluestone base, approximately 6”, to insure tree health is not impacted and that no soils below the 12’ cap are exposed.

8. Please attach photos that document compliance with the ELUR, potential areas of concern, and the current state of the engineered controls.

Pedestrian shortcut to Mill St prior to the 2018 installation of the decorative fence.

[Image of lawn protected from pedestrian traffic by Boston Garden Post & Chain fence.]
The stepping stones have relieved some wear but the QAS Trustees are considering the future installation of a brick pathway as a more permanent and safer solution.

Wear area around central boulder that continues to be effectively managed by the poured in place rubber surfacing.
Mulch cover has been maintained around young trees

Site of removed dead oak converted to grass with application of loam, seed and hay germination fabric (stump was cut flush not ground out)
Heavily used entrance opposite Starbucks would benefit from topdressing & seeding in 2021

Overall the vegetative cover is in excellent condition
