Memorandum

To:                 Joseph Martella, Rhode Island Department of Environmental Management (RIDEM)
From:               Michele V. Leone, Manager, New England Site Investigation & Remediation
Date:               05/27/2011
                     Former Tidewater Facility
                     Pawtucket, Rhode Island
                     RIDEM Case No. 95-022

As requested by RIDEM, the following summarizes response actions expected to be performed at the
above-referenced site during the week of May 30, 2011. No significant activities are anticipated during
this week.

SITE ACTIVITIES TO BE PERFORMED

  o  Complete site observation walk.

As you aware, upgrades to our Tidewater natural gas regulator station began last week. The first
two weeks of the project involve only fabrication activities which are being performed off-site.
Based on the current schedule, on-site activities are currently anticipated to begin the week of June
6th. We anticipate that excavation activities will not begin before the week of June 13th.

Please note that a document repository for this site has been set up at the Pawtucket Public Library
(13 Summer Street).

Please contact me at 781-907-3651 if you have any questions or comments.
