SAFIS

[Listserv](#)

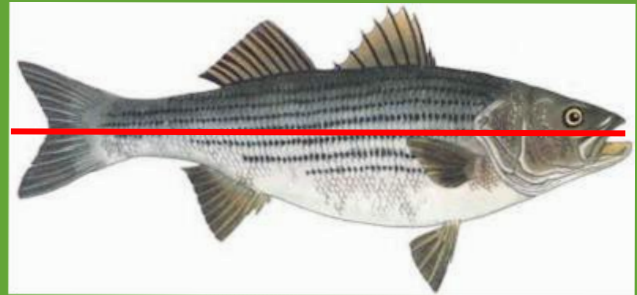

Measuring Marine Species

Lobster

Carapace length, the eye socket to the end of the carapace

Finfish

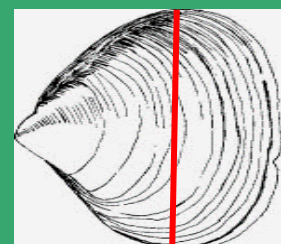

Minimum sizes are in total length, that is the tip of the snout to the tip of the tail

Crabs

Carapace width, for blue crabs it is tip to tip

Shellfish

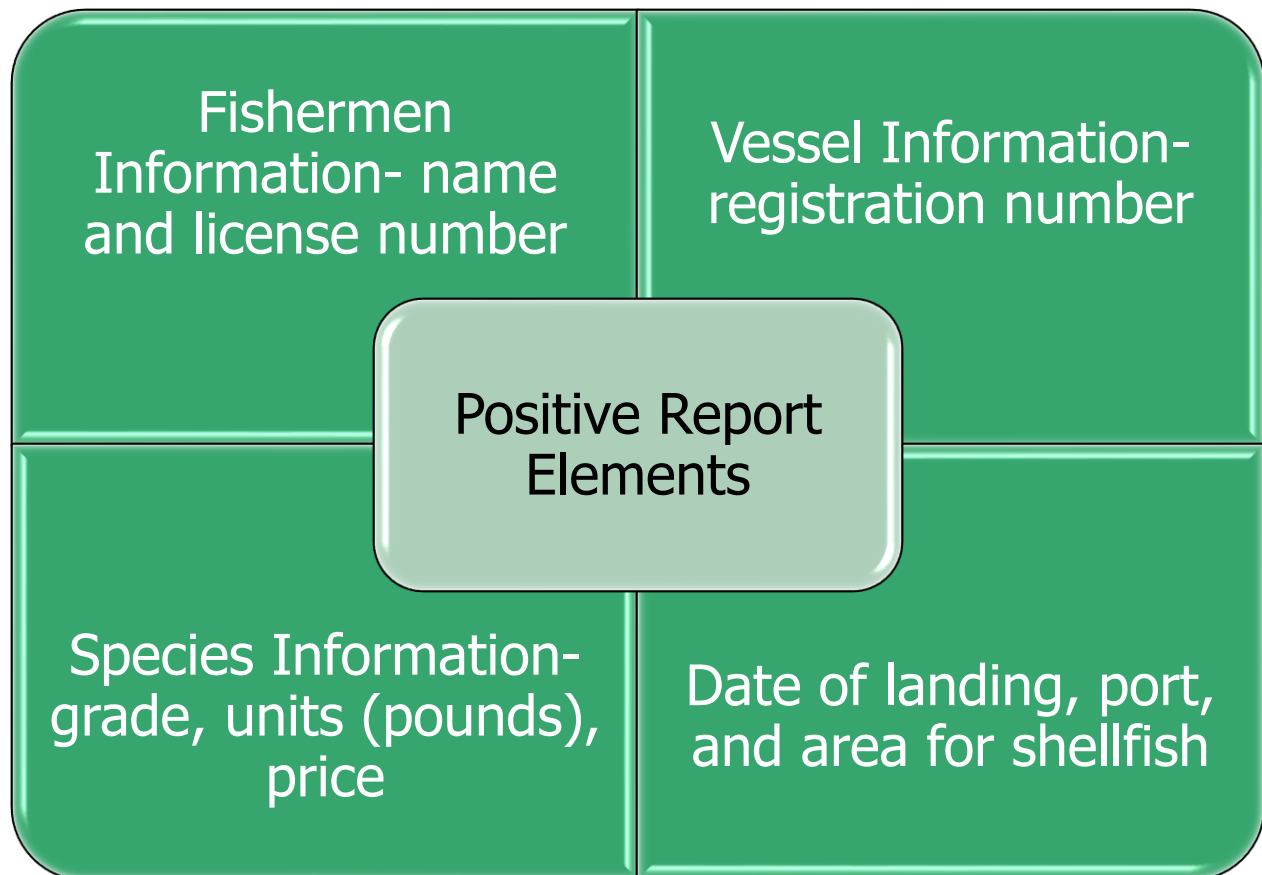

Dealer Reporting

You will need access to a computer and the internet to complete your reporting requirements

Reports are required twice weekly (Monday and Thursday) and all reports are due to SAFIS within 5 days of the purchase.

There are 2 kinds of reports, positive (purchase was made) and negative (no purchases made).

More detailed instructions on data entry are available! [Click here](#)

Dealer Reporting Species Identification

All species must be entered down to the species level, generic groupings are not allowed

Some Species ID

Click for
Herring ID
Key

Channeled Whelk

Smooth Shell

Knobbed Whelk

Knobs on outside of shell

Dealer Reporting

How to obtain the information required for the report

Dock Slip

- Get the information on a dock slip for later entry

New Fishermen Form

- Have each new fisherman fill out a profile to have the information on hand. Make sure to check in and make sure nothing changes

Conversation with the Fishermen

- Enter the data right away, and ask the fishermen while it is being entered

Optional Dock Slip

Dealer Name Here	
Fishermen Name:	
License Number:	
Vessel Registration Number:	
Port of Landing:	
Shellfish Management Area:	
Species and grade	Pounds

This form would be filled out by the person taking the product from the fishermen, the data would be entered at a later date into SAFIS

Optional New Fishermen Form

This form would be filled out by the fisherman the first time they sell to you. It is important to communicate with the fishermen to make sure the information does not change, and if it does to update the information

Dealer Name Here

Fishermen Name:

License Number:

Vessel Registration Number:

Port of Landing:

If using this method make sure you get the shellfish management area- it should be on the bag tag, or you can ask the fishermen

Species Specific Requirements

Shellfish

Local Area Fished is required in your dealer report

All shellfish must be tagged with the shellfish management area

Striped Bass

Each bass must be tagged, and reports need to be submitted to RIDEM outside of SAFIS

All striped bass purchases must be entered into SAFIS within 24 hours
