New License/Endorsement Opportunities Available for 2022

For 2022, *eight (8)* new commercial fishing license/endorsement opportunities will be available. Five of these new opportunities are the same as those that have been available since 2003, when the new licensing program went into effect. They are:

- Commercial Fishing License (CFL) with:
 - (1) **Non-Restricted Finfish endorsement**, available to any resident or non-resident;
 - (2) **Shellfish Other endorsement**, available to any resident;
 - (3) **Non-Lobster Crustacean endorsement**, available to any resident.
- **Student Shellfish License**, available to any resident who is a full-time student and 23 years of age or younger as of 6/30/2022.
- **Over 65 Shellfish License**, available to any resident who is 65 years of age or older as of 2/28/2022.

Three additional license/endorsement opportunities are being made available for 2022. A total of thirty-six (36) new **Quahog endorsements** and six (6) new **Soft-Shell Clam** endorsements on CFLs will be issued. The Quahog endorsement will allow the holder to commercially harvest quahogs at the basic harvest level, which is a 3-bushel per day statewide limit. The Soft-Shell Clam endorsement will allow the holder to commercially harvest soft shell clams at the basic harvest level. Also, a total of twenty-four (24) new **Restricted Finfish endorsements** on PELs will be issued. The Restricted Finfish endorsement will allow the holder to commercially harvest any of the six species of restricted finfish – summer flounder, scup, striped bass, black sea bass, tautog, and winter flounder – at the full harvest level.

State law requires everyone applying for (any type of) new license from the State to first certify that they have filed all required state tax returns and paid all taxes due to the State or entered into a written installment agreement with the Tax Administrator to pay delinquent state taxes. See the document entitled *New Taxation Certification Requirements* for more information.

Who may apply for the new Quahog, Soft Shell Clam and Restricted Finfish endorsements?

Any resident (age restrictions may apply) may apply for a new Quahog endorsement and/or Soft-Shell Clam endorsement. Any resident or non-resident may apply for a new Restricted Finfish endorsement. [Note: in certain categories, age restrictions apply.]

Who may not apply for the new Quahog, Soft Shell Clam and Restricted Finfish endorsements?

Holders of Multi-Purpose Licenses (MPURPs) or Principal Effort Licenses (PELs) with Quahog and/or Soft-Shell Clam endorsements may not apply for a new CFL with Quahog and/or Soft Shell Clam endorsement. Holders of MPURPs or PELs with Restricted Finfish endorsements may not apply for a new PEL with Restricted Finfish endorsement.

What will be the process for reviewing applications and determining who will obtain the new Quahog, Soft Shell Clam and Restricted Finfish endorsements?

- Anyone (residency restrictions apply) may apply for the new endorsements by submitting an application, along with any/all accompanying documentation relating to priority status, to DEM between January 1, 2022 and February 28, 2022. Any application received after February 28, 2022 will not be subject to consideration. See the accompanying documents entitled *Guidance for Applicants Seeking New Quahog/Soft Shell Clam/Restricted Finfish Endorsements* for detailed guidance on qualifying for priority status and associated application requirements.
- Immediately following February 28, 2022, DEM will conduct an initial review of the applications to determine which applicants have submitted appropriate documentation establishing priority status in any of the categories described above.

Any applications accompanied by inadequate or improper documentation – e.g., insufficient number of transaction records, bogus transaction records, affidavits that have not been notarized or are otherwise invalid, etc. – will not be considered in either of the first two priority categories. Moreover, fraudulent submittals may be referred to DEM’s Office of Law Enforcement for further investigation and possible enforcement action. Fraud on the part of any existing license holder, including but not limited to a captain who signs an affidavit in support of a claim of crew member status that turns out to be false or inaccurate, may result in the suspension or revocation of the license held by the existing license holder and will deem crew member ineligible for consideration of new license/endorsement.

- For the 36 Quahog endorsements & 6 Soft Shell Clam endorsements:
 - Twelve (12) quahog endorsements will be made available to priority category 1A (holders of CFLs with shellfish Other and/or Soft-shell Clam endorsements who have been actively fishing their licenses), Two (2) soft shell clam endorsements will be made available; Twelve (12) quahog endorsements will be made available to priority category 1B (holders of PELs who have been actively fishing their licenses in any fishery), Two (2) soft shell clam endorsements will be available; and Twelve (12) quahog endorsements will be made available to priority category 1C (crew members who have been actively participating in the shellfish fishery) and Two (2) soft shell clam endorsements will be available.
 - Within each of the three categories, applicants will be prioritized based on the length of time they have been actively fishing or actively participating on a continuous basis.
 - If, in any of the three categories, there are fewer eligible applicants than there are endorsements available for issue, the balance will be evenly distributed among the other two categories.
 - If necessary, a lottery will be held to select among an excess number of evenly matched applicants.
 - If, after completing the above described first-tier process, there are still endorsements available, then the second tier of priority applicants will be considered. The balance of remaining endorsements will be evenly distributed among the two second-tier categories – i.e., category 2A (holders of CFLs, endorsed in any fishery, who have been actively fishing

their licenses) and category 2B (crew members who have been actively participating in any fishery). Within each category, applicants will be prioritized based on the length of time they have been actively fishing or actively participating on a continuous basis. If, in either category, there are fewer eligible applicants than there are endorsements available for issue, the balance will be distributed to the other category. If necessary, a lottery will be held to select among an excess number of evenly matched applicants.

- If, after completing the above-described second-tier process, there are still endorsements available, then the third tier of applicants – residents who do not qualify for priority status – will be considered. If there are more applicants than there are endorsements available for issue, the endorsements will be issued by lottery.
- For the 24 PEL Restricted Finfish endorsements:
 - Eight (8) will be made available to priority category 1A (holders of CFLs with Non-Restricted Finfish endorsements who have been actively fishing their licenses); Eight (8) will be made available to priority category 1B (holders of PELs who have been actively fishing their licenses in any fishery); and Eight (8) will be made available to priority category 1C (crew members who have been actively participating in the finfish fishery).
 - Within each of the three categories, applicants will be prioritized based on the length of time they have been actively fishing or actively participating on a continuous basis.
 - If, in any of the three categories, there are fewer eligible applicants than there are endorsements available for issue, the balance will be evenly distributed among the other two categories.
 - If necessary, a lottery will be held to select among an excess number of evenly matched applicants.
 - If, after completing the above described first-tier process, there are still endorsements available, then the second tier of priority applicants will be considered. The balance of remaining endorsements will be evenly distributed among the two second-tier categories – i.e., category 2A (holders of CFLs, endorsed in any fishery, who have been actively fishing their licenses) and category 2B (crew members who have been actively participating in any fishery). Within each category, applicants will be prioritized based on the length of time they have been actively fishing or actively participating on a continuous basis. If, in either category, there are fewer eligible applicants than there are endorsements available for issue, the balance will be distributed to the other category. If necessary, a lottery will be held to select among an excess number of evenly matched applicants.
 - If, after completing the above-described second-tier process, there are still endorsements available, then the third tier of applicants – residents who do not qualify for priority status – will be considered. If there are more applicants than there are endorsements available for issue, the endorsements will be issued by lottery.
 - If, after completing the above-described third-tier process, there are still endorsements available, then the fourth tier of applicants – non-residents who do not qualify for priority status – will be considered. If there are more applicants than there are endorsements available for issue, the endorsements will be issued by lottery.

Department Affidavit

In Support of a
Commercial Fishing/Principal Effort License Application
to the RI Department of Environmental Management

To establish priority status as an active, paid crew member, an applicant for a CFL (Commercial Fishing License) or PEL (Principal Effort License) must be able to demonstrate via one or more affidavits signed by one or more RI licensed captains that he or she fished with that captain, or those captains, at least 40 days during 2020 and 2021. [Note: the 40 days of activity must be documented by dated transaction records that demonstrate that the captain(s) have sold authorized seafood to RI licensed dealers on at least 40 days and that some activity must have occurred in each of the two calendar years. Also, all of the activity must have occurred subsequent to the applicant's 16th birthday for residents, aged 18 for non-residents. Also: captains must have held a valid RI commercial fishing license during the relevant fishing period as well as having the vessel commercially declared]. Additionally, crew members will be required to submit proof of being paid by the captain by submitting a W-2 form, 1099 form and/or paycheck stub(s) from a financial institution for each year worked along with the New License Opportunity Application.

I hereby declare, under penalty of perjury, that I am a RI licensed commercial fisherman, that I serve as the captain of the commercial fishing vessel(s) identified below, and that _____ has served as a paid crew member on my boat(s) during 2020 and/or 2021 for the period indicated below. Please make note of additional years worked and days fished for each year (if applicable) on the reverse side of this Affidavit. Applicants must submit a W2, 1099 or copies of checks or pay stubs to validate paid status for each year worked. Failure to submit any of the required above documents along with the New License Opportunity Application will result in the applicant being excluded from this priority category.

I understand that fraud on the part of any existing license holder, including, but not limited to a captain who signs an affidavit in support of a claim of paid crew member status that turns out to be false or inaccurate, may result in the suspension or revocation of the license held by the existing license holder and will deem crew member ineligible for consideration of new license/endorsement. I have reviewed this Affidavit with my crew member and we agree all information contained herein is valid.

New Taxation Certification Requirements

A new state law, enacted in 2004, requires everyone applying for any license from the state to first certify that they have filed all required state tax returns and paid all taxes due to the State, or entered into a written installment agreement with the Tax Administrator to pay delinquent state taxes. Accordingly, all applicants for new or renewed commercial fishing licenses must first complete one of the following two requirements:

- a) Sign a Taxation Certification, certifying compliance with all state tax obligations as noted above; the form must also include the applicant's social security number or FEIN, or
- b) Furnish a Letter of Good Standing from the Tax Administrator. (401)574-8756.

The Taxation Certification form is available from DEM; it may be completed at the counter while applying for a license or may be filled out online and submitted as part of the online renewal process. Letters of Good Standing must be obtained from the RI Division of Taxation, Collections Division, One Capitol Hill, Providence, RI 02908 (401) 574-8756. **DEM will not issue any new or renewed license until the applicant has submitted a properly completed Taxpayer Affidavit or a Letter of Good Standing.**
